Officers will learn the concept of Tactical Combat Casualty Care as it applies to law enforcement tactical situations and the treatment of injured officers. Officers will learn and demonstrate specific treatments and interventions for the most commonly encountered wound patterns. Identify the concepts of Tactical Combat Casualty Care, its use in the law enforcement environment and how this concept differs from historically taught conventional First Responder medical treatment practices.

Officers will learn the following:

- Identify the most commonly sustained officer injuries and preventable causes of death.
- Identify the importance of mindset and maintaining situational awareness when wounded and when treating fellow officers.
- Identify signs and symptoms of airway problems and demonstrate airway interventions.
- Identify signs and symptoms of serious bleeding and demonstrate control interventions
- Identify signs and symptoms of shock and demonstrate prevention and treatment interventions.
- Perform a CASEVAL/F.A.S.T. Rapid Trauma Assessment and tactical evacuation.
- Plan and perform a mobile and manual officer down rescue in a high-threat environment.

Funding made available by Homeland Security grant funds and the Illinois Law Enforcement Training and Standards Board, Southwestern Illinois Law Enforcement Commission, ASSIST #14 Partnership and the seven counties of Bond, Clinton, Madison, Monroe, Randolph, St. Clair and Washington. MTU"14 request for certification of this course has been approved by the Illinois Law Enforcement Training and Standards Board.
