**WHO:** Chief Justin Rottmann, Grantfork PD

**TO REGISTER:** Visit our website [www.silec.org](http://www.silec.org). **Limit 20.**

Officers will discuss and visualize the concept of Advanced Tactical Emergency Casualty Care as it applies to Law Enforcement tactical solutions and the treatment of injured officers. Officers will learn and demonstrate specific treatments and interventions for the most encountered wound patterns.

**At the end of this training the trainee will be able to:**

- Identify the concepts of Tactical Emergency Casualty Care, it's use in the Law Enforcement environment, and how this concept differs from historically taught conventional First Responder medical treatment practices.
- Identify the most sustained officer injuries and preventable causes of death.
- Identify the importance of mindset and maintaining situational awareness when wounded and when treating fellow officers.
- Identify signs and symptoms of airway problems and demonstrate airway interventions.
- Identify signs and symptoms of serious bleeding and demonstrate control interventions.
- Identify signs and symptoms of shock and demonstrate prevention and treatment interventions.
- Perform a M.A.R.C.H Rapid Trauma Assessment.
- Plan and perform a vehicle and non-vehicle officer down rescue/extraction in a high-threat environment.
